WHY CHOOSE DESIGN AND VISUAL

WE UNDERSTAND THAT CHOOSING THE RIGHT PARTNER TO REPRESENT YOUR BRAND AND WORK ALONGSIDE YOUR TEAM IS CRITICAL TO SUCCESS. WE WORK HARD TO ENSURE THAT WE UNDERSTAND ALL ASPECTS OF EACH PROJECT AND ENSURE THE HIGHEST QUALITY, DESIGN, MANUFACTURE AND INSTALLATION FOR OUR CLIENTS.

Our people have decades of experience and a rich background of successful projects

Our design capability and expertise ensures we get it 'right' for our clients

We manufacture off-site from our South London premises maximising accuracy

We support our clients at every step and look to actively collaborate at all times

We take responsibility from project inception to project close; design, manufacture and install

Our geographical reach means we can deliver projects around the UK

OUR RECENT CLIENT PROJECTS INCLUDE

- Heathrow T3
- The Walbrook Building
- The Shard
- Birmingham New Street Station
- Skype Offices London
- No.1 High Street Kensington
- The Glebe
- 100 Bishopsgate
- Royal Opera House
- Goldman Sachs
- Credit Suisse Auditorium
- South Bank Place
- Wells Fargo
- Arndale Shopping Centre

WHAT IS GLASS REINFORCED GYPSUM?

GLASS-REINFORCED GYPSUM (GRG) IS COMPOSED OF TWO KEY MATERIALS, A HIGH-DENSITY GYPSUM AND CONTINUOUS FILAMENT GLASS FIBRE MATTING - WHICH ACTS AS A REINFORCEMENT, STRENGTHENING THE GYPSUM.

GRG is an adaptable and flexible product and is light, strong and fireproof. GRG products are ideal for high traffic (typically internal) areas such as retail spaces, transport terminals, commercial offices and atrium/reception areas.

BENEFITS OF GRG

- Quick, easy and cost-effective to install
- Strong and durable
- Ideal for high-traffic areas
- Minimal maintenance
- Wide range of standard sizes
- Prefabricated off-site work rather than measure and fit onsite
- Class 0 Spread of Surface Flame
- Crack resistant and low expansion
- Lightweight
- Complex shapes achieved

CASE STUDIES

IBM CLIENT CENTRE, LONDON

CLIENT: HOK

LOCATION: SOUTH BANK

We manufactured and installed multiple curved lighting booms, recessed lighting channels and two monolithic columns to create a zoned area within the Client Centre.

BIRMINGHAM NEW STREET MAIN CONCOURSE

CLIENT: HISKOLL ARCHITECTS AND DESIGNERS

LOCATION: BIRMINGHAM NEW STREET

We were selected to carry out the specialist GRG column encasement works within the atrium area of the station. Using our experience in complex geometric formations, we successfully delivered the architects' exacting design.

WHAT IS JESMONITE?

JESMONITE PRODUCTS ARE COMPOSITE MATERIALS, A COMBINATION OF A REACTIVE MATERIAL BASE AND A PURE WATER BASED ACRYLIC RESIN.

Jesmonite can be used to replicate the appearance and texture of many different surfaces in a wide range of colours. Choose from Acrylic Modified Gypsum or Cementitious Composites for both cast and fibre reinforced design features.

Jesmonite is a highly versatile range of products that are ideal for internal and external design features such as wall tiles and panels, columns and pilasters, lighting elements, water features and more.

BENEFITS OF JESMONITE

- Strong, flexible and durable, making it high impact resistant
- Lighter than stone, glass-reinforced concrete, sand and cement products
- Independently fire rated in accordance with European Fire Classification EN13501-1
- Solvent free with no VOCs
- Replicates the very finest detail
- Water-based not solvent-based, making it kinder to the environment
- Can be pigmented to virtually any colour or RAL reference. It can also mimic any texture and reproduce the effect of materials such as stone, metal, wood, leather and fabric

CASE STUDIES

200 HAMMERSMITH ROAD

CLIENT: ROYAL LONDON ASSET MANAGEMENT

LOCATION: HAMMERSMITH

We manufactured Jesmonite wall panels incorporating the look of rope to match the architects colour and design theme which ran throughout the building.

SOHO PLACE, 9 RATHBONE PLACE

CLIENT: DERWENT LONDON PLC

LOCATION: SOHO

We were approached by Thornton Partnership to manufacture and install ribbed AC730 Jesmonite wall panels to the Soho Place Marketing Suite.

“

“Design & Visual Concepts completed this project achieving the very highest level of quality to the specialist feature ceiling areas and well ahead of schedule. Both the client and the architects were delighted with the impressive and striking end result.”

PROJECT MANAGER, YELL, OFFICE & RESTAURANT

“Everyone at Thornton Partnership and the client was very impressed with the wall and the workmanship that went into the Jesmonite”

SENIOR PROJECTS MANAGER, SOHO PLACE MARKETING SUITE

“Our experienced and highly skilled design team and DVC’s in depth knowledge and specialist processes allowed us to undertake this type of work and meant we were not overcome by the expectations and challenges placed upon us. We achieved what the client and architect wanted.”

PROJECT MANAGER, THE WALBROOK BUILDING, CANNON STREET

“The logistics of this job was extremely challenging trying to work amongst lots of other trades. The end result is a fantastic concourse area for the public to use”

PROJECT MANAGER, BIRMINGHAM NEW STREET MAIN CONCOURSE

”
